

Fed Up

Gob

With tunnel vision on you are the only one all made up stare straight up and walk straight into a wall see this is all your fault you take more than you can hold you want this one you wont give up you'll suck it through a straw 'til you're full, 'til you're full. It's true that you would be fed up with you if you knew what you are. 'til you're full of yourself it's true that you would be fed up with you if you knew what you are. It's different than before you dont listen anymore you're impatient, you're inflated and i know that you wont stop 'til you're full.
