

# I Hear You Calling

Gob

- G**  
1. I've seen you now  
    **Ami**  
About the fourth time  
    **C** **G**  
Baby, but you know that I got nothing to say  
    **C** **G**  
It's so charming to look on your face  
    **C**  
But your eyes inviting something  
    **D**  
I just can't do now  
**G** **Ami**  
I've been around about your hood  
I'm looking for you  
    **C** **G**  
Just to shine some light on my day  
    **C** **G**  
Feels like ages since i've been out your way  
    **C**  
I've been caught up  
    **D**  
With a handful of new sensations  
  
**C** **D**  
R: I hear you calling  
    **C** **G**  
Calling for me out in the night  
    **C** **D**  
But it's all bad  
    **Ami** **C**  
And I know that  
  
2. I've seen you now  
About the fifth time  
Baby, but you know I got nothing to say  
It's so charming to look on your face  
But your eyes inviting something  
I just can't do now  
I've been around about your hood  
I'm looking for you  
Just to shine some light on my day  
Feels like ages since i've been out your way  
I've been caught up  
With a handful of new sensations

R: I hear you calling... (6x)
