

# Drowning In Mud

## God Dethroned

Your country needs you, so come and join our war  
It's fun and takes you places you've never seen before

Dying races colliding on battlefields  
Bodies lying around you and rotting in pools  
Drowning in mud, your army is stuck  
As far as my eyes can see there's misery

Trench wars caused by stalemate  
Digging a hole, now it's your home  
You wanna leave but you're stuck in the mud  
Then there's the rat. He becomes your best friend

Don't stick your head out. The sniper never sleeps  
Cannons roar as you storm the enemy

Dying races colliding on battlefields  
Bodies lying around you and rotting in pools  
Drowning in mud, your army is stuck  
As far as my eyes can see there's misery

Drowning in mud

Trying to stay alive  
Drowning in mud and die

Trench wars caused by stalemate  
Digging a hole, now it's your home  
You wanna leave but you're stuck in the mud  
Then there's the rat. He becomes your best friend

Don't stick your head out. The sniper never sleeps  
Cannons roar as you storm the enemy

Dying races colliding on battlefields  
Bodies lying around you and rotting in pools  
Drowning in mud, your army is stuck  
As far as my eyes can see there's misery
