

# Abduction

## God Module

Did you see the lights in the sky?  
Before the death-ray beams burned out your eyes?  
Do you remember what you did when you lost time?  
Or how it felt when you were still alive?

They don't exist  
You don't exist  
We don't exist  
Because nothing exists

Safety in numbers  
There's a butcher hiding under your covers  
Waiting for you to die  
To tuck you in and bleed you dry

Give no reaction to the sounds you've heard  
It's just a mindf\*ck transmission from an alternate earth

A message received from the depths of space  
With instructions to eliminate the human race

It's killing time for those inclined  
To take apart the conscience of a diseased mind  
Tearing it down to reconstruct it online  
A world in reverse, Falling as we incline

Don't believe anything they say to you  
You're just a nameless whore to be used and abused  
A mass execution, The final solution  
A secret invasion, A forgone conclusion
