

Beyond Fear

God Module

"In this world, there is real evil" (2x)
"In the darkest shadows, and in the most ordinary places"

Terrified
I don't trust myself
There're so many things you don't see
I'm mesmerized
I'm starting to believe
The words I hear when I sleep
They're tying me to my bed
Amputating my arms and removing my head
Leaving me what's left behind
To create all the monsters
I've built in my mind

Are you afraid? You should be
I can't explain what's happening to me
I've been to places
That we're not allowed to go
To learn the words
That we're not supposed to know
Say them with me

Terrified
That someone's watching always following me
I'm mesmerized
By the horror beyond
The stars that die in their sleep
We are the colors out of space
A broken reminder
A shade of disgrace
Some secret hidden sign
Hours beyond
Your concept of time
