

## Cross My Heart

### God Module

Last night the sky exploded  
Proving we were wrong from the start  
Outside cold and dreaming  
That the world was falling apart  
To this day I can't remember your name  
Now everything seems as f\*cking fake  
As the words they said we're not supposed to say

Sometimes sleep won't come  
When I close my eyes  
So I lie in bed crossing my heart  
And hoping you die  
Sometimes everything feels wrong inside

It's like I'm thinking of everything at once  
And nothing at the same time

In this world I've made  
No one knows what they're supposed to be  
I'm keeping secrets from myself  
Drowning in the water of a dried up sea  
To this day I can't remember your face  
Now everything here seems as f\*cking fake  
As the pain these pills are meant to take away
