

Deceit

God Module

Inside a white room chained to the floor
Looks like you'll be here a while just like the time before

Together I thought we could ascend
The explosions in the sky from the wars of men

But it was all a lie
That was the only explanation that i can believe in
Part of me died when you cried
When I told you the truth
That I could never love you again

Rejoice in your despair
As we celebrate our broken lives that we can't repair

Our story will be written in blood
We sleep beside the serpent in the wake of the flood

Why did you lie?
You were the closest thing to god that I ever needed
You saw it in my eyes when you cried
When you told me the truth
That you could never love me again
