

## We are Legend

### God Module

They told me you can see the future  
I never said I could read your mind  
Stop wasting all our precious time  
Because tomorrow we all might die

But tonight we're still alive  
We're watching the world end one more time  
Leaving our thoughts and fears far behind

In our minds we'll resurrect the sky  
Make believe the sun still shines  
Watching the world end through each other's eyes

Has everyone gone blind?  
Have we all lost our minds?  
Our dreams have been crucified  
Soon we all will say goodbye

But tonight we're still alive  
We're watching the world end one more time  
Leaving our thoughts and fears far behind

In our minds we'll resurrect the sky  
Make believe the sun still shines  
Watching the world end through each other's eyes
