

Another Day

Godgory

Another day
When the pains of life won't bar my way
I'll break these chains
That hold me down
I'll tear you down into my private hell
Another day
I will trade my soul for your demise
Trapped in this wheel
I struggle on
Just to make it to another day
No! I won't take no more
no more pain
I'm gonna throw your weight of my back
Put my heart into the attack
I will tear you down
Smash your crown
Have your rule come to an end
And when you finally die by my hand
It's a breath of life to this land
All the wasted years
Come back as tears
In a heavy sigh of relief

Another day
When the dawn breaks over a brand new world
I'll let the sun
Wipe my tears away
Find my peace in the world without end

No! I won't take no more
no more pain
I'm gonna throw your weight of my back
Put my heart into the attack
I will tear you down
Smash your crown
Have your rule come to an end
And when you finally die by my hand
It's a breath of life to this land
All the wasted years
Come back as tears
In a heavy sigh of relief
