Call Me

Golden Earring

When the time has come
That your love is strong
And you don't know what to do
Then I'm miles away
And you have to stay
For your own
What you must do
Is call me I come running back to you
Call me if you want my love so true
When I think of you
Girl that's what I do
While I sit here all alone
Then I see your lips
Feel your finger tips
And I hope
That you will fall

Call me
I come running back to you
Call me
If you want my love so true

I only can't wait
Thought it makes me so afraid
To think that you're lonely
It's the only thing you hate
When the time has come
That your love is strong
And you don't know what to do
Then I'm miles away
And you have to stay
On your own
What you must do

Is call me
I come running back to you
Call me
Give you all my love so true
