Paper Bag

Goldfrapp

No time to fuck, but you like the rush Where would we be without sums Deals we make

Brown paper bag, makes for a hat When it rains on your head mate Cheers for that

When the world stops for snow When you laugh I'm inside Your mouth

Sucking the sun
Baboons and birds
With the weight of you dear
I forgot

Brown paper bag, makes for a hat When it rains on your head mate Cheers for that

When the world stops for snow When you laugh I'm inside Your mouth

Oh just go dear Feels a tear

When you laugh I'm inside Your mouth
