

# Stranger

Goldfrapp

Stranger, when you look at me  
Eyes strong as steel  
Light as day.

Born a mystery  
You're the in between  
Boy or girl.

Wilder,  
Than I've known before  
Fire rushes through everything

With that smile it seems  
You'll be killing me  
Tenderly

Every word is soft as fur  
I'm drifting deep  
Deeper in

Stranger will you remember,  
Stranger make me  
Remember you  
Remember you

Taken back  
The crowd are tired  
It's dead and gone  
Do or die.

Stranger I dream of you and  
Stranger I will  
Never know  
Never know  
Never know
