

Lose me, baby, lose me, baby  
Lost my mind, I'm crazy  
Baby baby, your body  
My body, one body  
Gettin money, becoming shallow  
I need Jesus, she going down low  
Jehovah-jirah, my provider  
You the leader, improviser  
Funny thing is, I was lost  
Lost my soul, yeah that's the cost  
If I'm the worker and you're the boss  
Then Imma go and get this money  
Lose my mind and lose control

Ride the wave, become a slave  
Full control, baby  
On the road, baby  
Road to riches, diamond rings  
Chains, everything is wrong  
But it's all so right to me  
Spirit just ain't right with me  
Pretty bitch who wear a thong  
All the girls gon sing your song  
Millions always looking up to you  
And they're going to choose your song  
Being fake and getting by  
Touching every model's thigh  
Be at all the parties  
Eating shrimp and always smoking right

Lose me, baby, lose me, baby  
Lost my mind, I'm crazy  
Baby baby, your body  
My body, one body  
Gettin money, becoming shallow  
I need Jesus, she going down low  
Jehovah-jirah, my provider  
You the leader, improviser  
Funny thing is, I was lost  
Lost my soul, yeah that's the cost  
If I'm the worker and you're the boss  
Then Imma go and get this money  
Lose my mind and lose control
