

# The Place And The People

Gomez

Raise your hand, wave goodbye  
Say your words, give your lines

Easy come and easy go, to and fro  
Tell me where to go

I'm taking time to discover  
The bonds you're breaking  
Won't just keep the two of us apart

Won't take it for I love the others  
There's no forsaking  
The place and the people in my heart

Light the match, burn me down  
Bite the hand, bite the sound

We're still pulling and pushing trains from the rail  
What's all that 'bout breaking bread going stale?  
You hum another names

I'm taking time to discover  
The bonds you're breaking  
Won't just keep the two of us apart

Won't take it for I love the others  
There's no forsaking  
The place and the people in my heart

(What I said)  
Now that you know me very well, go to hell  
Go to hell, my belle

I'm taking time to discover  
The bonds you're breaking  
Won't just keep the two of us apart

Won't take it for I love the others  
There's no forsaking  
The place and the people in my heart  
The place and the people in my heart  
The place and the people in my heart

I'm taking time to discover  
The bonds you're breaking  
Won't just keep the two  
Won't just keep the two of us apart  
The place and the people in my heart

The bonds you're breaking  
Won't just keep the two of us apart  
Won't take it for I love the others  
There's no forsaking  
The place and the people in my heart

The place and the people in my heart  
The place and the people in my heart
