## **Wharf Me**

## Gomez

Mr. Jones, you've been wasted before Rest your head on this dirty old floor And everybody's mind turned To what they knew before Everybody's mind turned off

She falls in between

Close your eyes, you'll be dreaming once more Candlelight, things are clearer than before Everybody's mind turned to what they knew before Everybody's mind turned off

She falls in between She falls in between

Maddest, maddest, maddest day When I'm by your door, come out to play We will dance and we will sway

We will go so far you'll want to stay Saddest, saddest, saddest day When I'm by your door on winter's day

She falls in between She falls in between
