

# Whatever's On Your Mind

Gomez

You share a cross  
Never breach my trust  
But kill with kindness  
Is what you do  
Flowers in winter bloom  
Maybe I fear I see you broken

Please hold onto your heart of gold  
While you struggle against the cold  
You keep dragging that heavy load  
Just let go

Whatever's on your mind  
Just let go  
Whatever's on your mind

Please take my hand  
Don't misunderstand  
It's time for moving  
It's time to go

A bramble and thorn may grow  
You give til you're gone  
And I'll have nothing

Please hold onto your heart of gold  
While you struggle against the cold  
You keep dragging that heavy load  
Just let go

Whatever's on your mind  
Just let go  
Whatever's on your mind

Please hold onto your heart of gold  
While you struggle against the cold  
You keep dragging that heavy load  
Just let go

Whatever's on your mind  
Just let go  
Whatever's on your mind  
Just let go  
Whatever's on your mind  
Whatever's on your mind
