I got a certain little girl,
That's on my mind
No doubt about it,
She look so fine
She's the best girl that I've ever had
Sometimes for sure make me feel so bad

Na, na, na.....

Hush, hush, I thought I heard callin'my name now
Hush, hush, she broke my heart
But I love her just the same now
Hush, hush, I thought I heard callin' my name now
Hush, hush, I need her love and I'm now not
To blame now

I've got her early in the morning I've got her late in the evening Oh, I wanna never need it now Oh, gotta, gotta have it Gotta have it now

She's got lovin' like quick sand Only took one touch of her hand Blow my mind and I meant so deep I can't eat all I can't sleep

Na, na, na.....

Hush, hush, I thought I heard callin' my name now Hush, hush, she broke my heart
But I lover her just the same now
Hush, hush, I thought I heard callin' my name now
Hush, hush, I need her love and I'm now not
To blame now
