

Wake Up Dead

Gov't Mule

I got something to say to you, I don't care if you get mad
Never thought what's come between us could ever get this bad

You're living like a dying man, you must be crazy, must be out
your head
You better wake up while you're still living, or one of these m
ornings, gonna wake up dead

Yeah, I watched you stumble through every street in town
I watched your women and your best friends put you down

Living like a dying man, must be crazy, must be out your head
You better wake up while you're still living, or one of these m
ornings, gonna wake up dead

You see, I tried to change your ways, but there's scars that ju
st won't heal
You done fell off that wagon and underneath the wheel

Living like a dying man, must be crazy, must be out your head
Better wake up while you're still living, or one of these morni
ngs, gonna wake up dead

Oh
Oh

You know the music that fell out of you has slowed down to a cr
awl
You're chasing dreams and dragons and pills with alcohol

You're living like a dying man, must be crazy, must be out your
head
You better wake up while you're still living, or one of these m
ornings, gonna wake up dead

Oh, yeah
Oh, yeah
You must be crazy

So hear me when I tell you, know I've said it all before
And this time is the last time, ain't gonna say it no more

You're living like a dying man, must be crazy, must be out your
head
Better wake up while you're still living, or one of these morni
ngs, gonna wake up dead, yeah
Oh, you better wake up while you're still living, or one of the
se mornings

One of these mornings, you'll be just another fool that woke up
dead
