

How Low

Graham Colton Band

I'm not about to change what you've become
I won't tell you what to say
cuz you don't care if I'm right or I am wrong
you just look the other way
You can take it from me
you will give up everything
She will lie
She will break you down inside
So How Low did you go?
So How Low
Every time that you get her on the line
She is watching what you say
You don't care if she's wrong or she is right
Cuz you just let her have her way
You can take it from me
She will take you for everything
She will lie
She will break you down inside
Cuz you will crawl,
You will bleed,
You will give up everything,
And you will lie, you will tell her anything,

So How Low did you go?
So How Low
You can take this from me
She will take you for everything
She will lie
She will break you down inside
Cuz you can crawl on your knees
You can give her everything
You'll ask why
But she won't tell you anything
So how low did you go?
How Low?
