

Don't Say You Love Me

Graham Colton

What's behind your eyes
I can't stop my mind from running
I know where you've been
You're lying
Now I can't sleep
On our bed with all the lights on
Say I'm the only one
You're lying

I stay you run cold blooded
I walk away you start to cry
I let you go but you keep on coming
Don't say you love
Don't say love
Don't say you love me
Don't say you care
I let you go but you keep on coming
Don't say you love
Don't say you love me

You're on the other side
The door's locked the gates are open
Don't wanna let you in like I did last night
You call up all my friends
I lose all the games you're playing
Wanna let you in just one more time

I stay you run cold blooded
I walk away you start to cry
I let you go but you keep on coming
Don't say you love
Don't say love
Don't say you love me
Don't say you care
I let you go but you keep on coming
Don't say you love
Don't say you love me

Don't say you love me
Don't say you love me
Don't say you love me
Don't say you love me

I stay you run cold blooded
I walk away you start to cry
I let you go but you keep on coming
Don't say you love
Don't say love
Don't say you love me
Don't say you care
I let you go but you keep on coming
Don't say you love
Don't say you love me
