

Good For Each Other

Graham Colton

Heard you found a new guy
You're real close
And he looks a little like me
Now you're saying things like so dope
And you said he's really deep

So you're right
I was wrong
Different time same song
I saw you two
You're looking well
I was lying
I know you could tell

I hope you're good for each other
I hope you go to hell
And when we see one another
I'm gonna wish you well

When he's working overtime you're solo
Looking for a place you can go?
I could wear a shirt and tie a black coat
Take you out to dinner turn off my phone

Are you happy now?
Maybe you're bored
I let you down
Like I did before
You changed you're hair
I liked it long
I bet he's right where I belong

I hope you're good for each other
I hope you go to hell
And when we see one another
I'm gonna wish you well

Good for each other
Good for each other
Good for each other
Good for each other

Heard you found a new guy
You're real close
And he looks a little like me

I hope you're good for each other
I hope you go to hell
And when we see one another
I'm gonna wish you well

We were good for each other
Good for each other
We were good for each other
So good for each other
We were good for each other
So Good for each other

We were good for each other
So Good for each other
I hope you're good for each other
I hope you're good for each other
