

# Life's What You Make It

Graham Colton

Take in all the sunshine bottle up the rain  
Go where the winds blows, let it show the way  
Open up the window, let in all the light  
You can pull the stars down paint the perfect sky

So go and write your song  
The world will sing along

Ahhh  
Life's what you make it  
Ahhh  
It's yours for the taking

You can test the water , you might as well jump in  
We all know where we'll end up, might as well begin  
Memories your making, frame inside in your heart  
In the middle of a nowhere is a somewhere you can start

So go and write your song  
The world will sing along

Ahhh  
Life's what you make it  
Ahhh  
It's yours for the taking

So go and write your own song  
All the world will sing along  
When you find your melody

Ahhh  
Life's what you make it  
Ahhh  
Life's what you make it

Take in all the sunshine bottle up the rain  
Go where the winds blows, let it show the way

Ahhh  
Life's what you make it  
Ahhh  
Life's what you make it  
Ahhh  
It's yours for the taking

So go and write your own song  
All the world will sing along  
When you find your melody  
We'll join in harmony  
Ahhh  
Life's what you make it
