

# Mountain Of Regret

Graham Coxon

All my lifetime I've done wrong  
Never thinking I belonged  
And my problems stay with me  
Cause my thoughts lie with she  
She was my girlfriend though I was mean  
Always there in my hour of need  
I took for granted her gentleness  
And have to live without her sweet caress

And as I light me a cigarette  
My heart is falling in my breast  
And as I lie me down to rest  
There's a mountain of regret

I turn my back on her true love  
All my friends and the lord above  
And my drinking dragged me down  
To the bars in Cabbage town

And as I light me a cigarette  
My heart is falling in my breast  
And as I lie me down to rest  
There's a mountain of regret

And as I sit here feeling low  
Wondering why she had to go  
I know I see through my disgrace  
The perfect beauty of her face

And as I light me a cigarette  
My heart is falling in my breast  
And as I lie me down to rest  
There's a mountain of regret
