## **Bucket List**

**Grave Digger** 

Around the world in thirty days I need no help, get of my way Harder faster, nothing to lose I believe I got the walkin' blues

Gos is a liar Devil's friar Burn in the fire Life's my desire

Good bye my friend I got the Judas kiss Come with me, check my bucket list Good bye my friend I rise my fist Countdown for my bucket list

Hurry up, no time to waste So many things I wanna taste Reaper's call surprised and scared me My fortune's gone, I've lost the key
