

# William Wallace (Braveheart)

## Grave Digger

I don't wanna be a hero  
But I'll stand and never kneel  
Freedom is well wort a dying  
Come we'll fight with heart and steel  
Beat the English at Sterling brigde  
I will guard the Scotish throne  
I myself skinned Cressingham  
In his own blood he did drown

Fight - Freedom we fight  
Stand - Scotland's pride

I am just a simple man  
I'm afraid to meet my end  
Braveheart they call me  
If they knew if they could see  
Edward's out to seek revenge  
His army's great his soldiers strong  
Come with me to fight at Falkirk  
Send them back where they belong  
I don't have the blood of kings  
But I'd die for Scotland's pride  
Even nobles follow me  
Into battle side by side

Fight - Freedom we fight  
Stand - Scotland's pride

Nightmares haunt my lonley nights  
I must be strong and I must fight  
Braveheart they call me  
If they knew if they could see  
I am just a simple man  
I'm afraid to meet my end  
Braveheart they call me  
If they knew if they could see

Vengeance burns a raging anger  
I have lost the fear to die  
Braveheart that's what I am  
I kill until my blood runs dry  
The lust for battle in my veins  
inspires me to take your life  
Braveheart that's what I am  
I kill until my blood runs dry

The lust for battle in my veins  
inspires me to take your life  
Braveheart that's what I am  
I kill until my blood runs dry  
I kill until my blood runs  
I kill until my blood runs dry!!
