

# Lost Yourself

Graveworm

When I awake - from my dream  
Obscurity - in my eyes  
Burning tears - over me  
Angels cry - lifeless time

I will cry - I wish to die  
Lost yourself - lost your way

Lie above the holy ground  
Devotion to your life  
My faith is now my second way  
To destroy my inner cry  
I hear your voice deep in me  
Let me feel your light  
Help me god, now it's time  
Incarnation on earth

Lost yourself - lost your way  
Lost yourself - lost your way

Cry for your life when you just became a sign of god  
Follow me into the light where angels fly  
Cry as I see your soul leave now the sphere of death  
Death is the door to another life where time will stop

Lost yourself - lost your way  
Lost yourself - lost your mind
