Walk On The Moon

Great Big Sea

```
      G/B         C
1. Is it just me,
      D*
   Or a message from above?
      G/B        C
   Bells are ringing,
      D*
   And push has finally come to shove.
      G/B          C
   The door before me now
      D*
   Is open just enough.

    C                   G/B          Asus                D
X1: And I'm sick and tired of waiting for dreams that never come.
    C               G/B           Asus                  D
    And games I'd never played in, but still wish that I had won.

    G     D
R1: Now I'm alive.
    G/B               C
    I've got one shot and I'm kicking it to you.
    G     D
    I'm alive.
    G/B                 C
    Though I realized it not a moment too soon.
    G              C
    This is my one small step.
    Asus           D
    This is my walk on the moon.

2. Did you think their hands were shaking
   As their rocket ship touched down?
   I'm sure they shivered,
   When they finally touched the ground.
   And that giant leap so fragile
   And it hardly made a sound.

X2: Well it must have been amazing for a world they got to see.
    But I don't care.  My foolish fear won't get the best of me.

R1: Now I'm alive...

X2: Well it must have been...

R2: I'm alive.
    I've got one shot and I'm kicking it to you.
    I'm alive.
    Though I realized it not a moment too soon.
    I'm alive.
    I've got one shot and I'm kicking it to you.
    I'm alive.
    Though  I realized it not a moment too soon.
    G         C         Asus D
    This is my one small step.
    G         C          Asus
    This is my one small step.
```

D
This is my walk on the moon. (4x)
