

Falling Apart

Great Lake Swimmers

Driven to realign beyond recognition
Gone from a sore thumb to an an apparition
Faces compelled to tell
Trouble has known you well
How did it find you dear
How'd you get here

Falling apart
Falling and failing

Falling apart

Bending from rapture to be taken with visions
Turning left, turning right, heavy decisions
How did you find the way
And how long did you stay
Are you ready to be clear
How'd you get there
