

Side Effects

Great Lake Swimmers

Side effects, side effects
They aren't worth the help that you get
When you need all the help you can get
[?] you're doing just fine
You are the one and you're there just to move time
Imaginary you, you can't help but climb
I don't know who you are most of the time

Live by affliction with four little squares
Now enter your summer, you know winter [?]
Every act is a move, every move is an act

Side effects, side effects
They aren't worth the help that you get
When you need all the help you can get

Side effects, side effects
They aren't worth the help that you get
When you need all the help you can get

Side effects, side effects
They aren't worth the help that you get
When you need all the help you can get
