

I remember you always waiting there for me
You can run the water you won't sink
When the trees they fall bring me down
And you told me to hold on then we'd be free

Are we human
Are we children
Are we god
Do we notice all the things that we've done

I remember walking to that lonely grave
How could we not ever feel the same
With love
With grace
With heart
With peace
Hold on, hold on
To me
Hold on, hold on
To me

Are we human
Are we children
Are we god
Do we notice all the things that we've done

Hold on, hold on, to me
Do we notice all the things that we have done
Can we live with all the things that we all want
