

# Baby's On Fire

Great White

Learnt me to rock and I learnt me to roll  
You got to use it, baby, to keep your soul  
Go down to town get some reaction  
Got to go down 'cause I need a distraction

I've been trying it on with everyone in sight  
He's been waiting so long for me to come tonight

Baby's on fire and I'm burning up  
Sparks been flying, she can't get enough  
Can't get enough but she's got what it takes  
Baby's on fire and I got the shakes

There ain't no cure and there ain't no time  
You got to have it and have it fine  
Don't say a word about her affections  
I'm going to come from another direction

She's been trying it on with everyone in sight  
I've been waiting so long for me to come tonight

Baby's on fire and I'm burning up  
Sparks been flying, I can't get enough  
Can't get enough but she's got what it takes  
Baby's on fire and I got the shakes

Baby's on fire and I'm burning up  
Sparks been flying I can't get enough  
Can't get enough but she's got what it takes  
Baby's on fire and she's got the shakes

Can't get enough sweet sweet love  
I'm coming around so get your tail up and ready for a heartbreaker

Baby's on fire and I'm burning up  
Sparks been flying I can't get enough  
Can't get enough but she's got what it takes  
Baby's on fire and I got the shakes

Baby's on fire and I'm burning up  
Sparks been flying I can't get enough  
Can't get enough but she's got what it takes  
Baby's on fire and she's got the shakes

Baby, baby, baby's on fire  
She can't get no higher  
Baby, baby, baby's on fire  
She's burning like fire

I think I got me a heat rash
