

# I'm Alive

Great White

In this moment is where I should be So close to the heart the feeling inside me Summer lovers alone in the dark Watching the stars where did it all start?

Holding on I'm holding on Holding on to a sweet sweet song To a brighter day Let love's light shine the way

I'm alive with you tonight I'm alive and it feels so right I'm alive and my heart it sings Of all the love you bring

No hesitation no turning away Just one simple word will take us a long way So never doubt it the depth of my love One look in my eyes you're all that I dream of

Holding on I'm holding on Holding on to a sweet sweet song To a brighter day Let our love light shine the way

I'm alive with you tonight I'm alive and it feels so right I'm alive and my heart it sings Of all the love you bring

It's a celebration It's a revelation

We drift away on an endless sea Love is hope for you and me Right in this moment is where I will be So close to your heart this feeling it takes me

I'm alive in your heart tonight I'm alive and it feels so right I'm alive and my world sings Of all the love you bring

I'm alive with you tonight I'm alive and it feels so right I'm alive and my heart it sings Of all the love all the love all the love you bring
