

Psychedelic Hurricane

Great White

I don't ever want to hurt you
That's just the way it is with me
And I don't care how long it takes you
To hold my hand skip a stone standing naked by the sea

Tossing turning spinning around
This world is full of tinsel town
My pocket full of change is all gone

Psychedelic hurricane
Clouds outside my window pane
Spinning around and around
Paint the skies above you
Tossing turning someone set me free
Like the sun shining on the sea

There's a place I want to take you
Where you can hover over me
Don't worry love I won't forsake you
So dry those tears from your eyes my love is all you need

Falling crawling drags me down
Don't know till you've hit the ground
Yesterday was here but now it's gone

Psychedelic hurricane
Clouds outside my window pane
Spinning around and around
Paint the skies above you
Tossing turning someone set me free
Like the sun shining on the sea

Pour your rain on me
Let your love rain down on me
That's all I need to make it through the fire
That's all I need pour your rain on me

I'm falling
Yes I'm crawling
Just like a demon that can't let go
I feel eclectic
This love's electric
Just like a diamond as black as coal

Psychedelic hurricane
Clouds outside my window pane
Spinning around and around
Paint the skies above you
Tossing turning someone set me free
Like the sun shining on the sea

Pour your rain on me
