

## Was It The Night?

Great White

Hard to believe that it's over  
Oh no here comes another empty day  
I Still see the leaves of October  
A winter of Heartache on way

And looking back  
seems like yesterday  
My world was so bright  
with the light of your love shinin through

(Was it)  
Was it the night  
Was it something in her eyes  
Got me to thinkin  
thinkin bout you  
Always the same  
And you know whos to the blame  
Thought I was over  
Over this pain

No conversation over dinner  
Too much room  
Oh so cold inside my bed  
Froze in a long, long, lonely winter  
With no change of seasons up ahead

Thought I was over you  
And there you are on every street every boulevard  
Anyway I turn leads me to you

And that life was such a long time ago  
But I got these blues once again  
I cover my eyes so the pain doesn't show  
Looks like ill never  
Never let you go- yeah

Thought I was over  
Over this pain  
Ooo yeah  
Ohhoo yeah  
Was it the night?
