

It won't be long, it won't be long, it won't be long
till she ruins you
All your friends don't know who you are now
And I, I won't lie, I'll just say it, she'll be the end
of you
And I, won't stand by, and stay quiet, while she ruins
you

Send her on her way, before it gets too late
Send her out before she burns this whole place down
Send her on her way, don't let her pack her bags
Get her out before she takes everything you have

Let the phone ring off the hook
Don't let her, don't let her, don't let her in
Let the devil out from within
Don't let her, don't let her, don't let her in

It won't be long, it won't be long, it won't be long
till she ruins you
All your friends don't know who you are now
And I, I won't lie, I'll just say it, she'll be the end
of you
And I, won't stand by, and stay quiet, while she ruins
you

Send her on her way, before it gets too late
Send her out before she burns this whole place down
Send her on her way, don't let her pack her bags
Get her out before she takes everything you have

Let the phone ring off the hook
Don't let her, don't let her, don't let her in
Let the devil out from within
Don't let her, don't let her, don't let her in

When she gets in your head, there's no getting out

Send her on her way before she gets her claws in you
Send her on her way before she burns it down

I told you, you know I told you..

It won't be long, it won't be long, it won't be long
till she ruins you
All your friends don't know who you are now!
