

Peace Of Mind

Greenwheel

It's 4 am
And I feel dead
Thoughts of you all in my head
They don't help to ease the pain
They're only driving me insane
I don't care what might have been
We've got to live with what we're given
You complain when I try to help
Too few years under your belt
Take the time to hear me out
And understand what I'm talking about
Do you ever hear the things I say
You're taking it the wrong way
I've found Peace of Mind
And I shared it with you for some time
We never meshed as one
And I've got this feeling that we're done
You mean so much to me
I couldn't help to let this be
I tried all that I could
But you never understood
I don't believe that I'm the man
To take your life into my hands
If I was I wouldn't have left
And I believe it was for the best
So live your life as each day comes
And I believe when it's all done
I will always be your friend
From this day to the very end
You've found peace of mind
That I believe once was mine
Let's do this all over again
But this time we'll just be friends
