

Play That One Again

Greg Laswell

Well that was fast
I wish we had taken more time with ending
I've always been
Quite on your side or maybe not
How fitting

Play that one again
the one with all those strings
The world's not listening
Play that one again
the one where the gang joins in
The worlds not listening
but I was, but I was

I hope you find
Your bright blue sky with all the stars
You were missing
I hope you thrive like you lived all alone
How fitting

Play that one again
the one with the promises
The world's not listening
Play that one again
the one where the gang joins in
The world's not listening
but I was, but I was

Did you think
when we met in Bellaire
we'd end up here?

Play that one again
The one with all the strings
The world is not listening
Play that one again
The one where the whole gang joins in
The world's not listening
but I was, but I was
but I was, but I was
