

# More Than Me

Greyson Chance

I lost my way on streets that I paved  
When I was deep in the blue  
You were gone the whole time  
You fall behind and I say goodbye  
When you drive to drink, I numbed my mind

Gone are the times  
We sipped on good wine  
For the taste, yeah  
Now you and I  
We just drink what we find  
Getting wasted

Your memory near  
Laced with the pain  
I needed love but it's never the same  
For I wanted more  
You wanted more than me

When the bottle is gone  
In that silence I'll find  
That life isn't nothing but chasin' the time  
For I wanted more  
You wanted more than me

Oh baby, since you lied I've had restless nights  
Heard you got a brand new me  
Guess you doin' fine

While you're getting through  
All the things that you do, staying vacant  
I drink what I find  
Cause my angels on high, staying wasted

Your memory near  
Laced with the pain  
I needed love but it's never the same  
For I wanted more  
You wanted more than me

When the bottle is gone  
In that darkness I'll find  
That life isn't nothing but chasin' the time  
For I wanted more  
You wanted more than me

[x4]  
The smoke got cleared  
When the days turned to months  
And the months turned years  
For the anger to fade

When I took a step back  
The realization came  
You weren't looking at me  
You were looking instead  
Somewhere over my head
