

# O Violet

Greyson Chance

Symphony state  
Layers of sun  
Layer of moon  
The things that we've been through  
The holes that we patched  
The skin we might bruise  
What will it do  
If we're gonna lose?

Cold interstates, smoky head  
My hands shake  
Way too fast, through the rain  
Every line spells your name  
I'm mad like crimson  
You're sweet like blue  
We found the space between us two  
Worlds collide when I found you  
Oh, Violet  
Mmm, oh, Violet  
Mmm

Hot summer flame  
Caught us right in  
An endless circle  
'Round the lakeshore bend  
Visions of God  
Like Hadrian's kiss  
My lips on you  
The things that we do

Cold interstates, smoky head  
My hands shake  
Way too fast, through the rain  
Every line spells your name  
I'm mad like crimson  
You're sweet like blue  
We found the space between us two  
Worlds collide when I found you  
I'm mad like crimson  
You're sweet like blue  
We found the space between us two  
Worlds collide when I found you  
Oh, Violet  
Mmm, oh, Violet

Cold interstates, smoky head  
My hands shake  
Way too fast, through the rain  
Every line spells your name  
I'm mad like crimson  
You're sweet like blue  
We found the space between us two  
Worlds collide when I found you  
Oh, Violet  
Mmm, oh, Violet
