

I'm a native to this land  
Grew up on the same ground  
Where my fathers took their stand  
I'm a native to this land

I'm a native to your hand  
I was made to rest inside them  
When I've labored all I can  
I'm a native to your hand

And I am with you now, finally  
I am with you now, finally  
I am with you now  
And I will always be

You're a native to this land  
You're the only one I know  
Who'll ever understand  
You're a native to this land

And I am with you now, finally  
I am with you now, finally  
I am with you now  
And I will always be

I'm a native to your love  
There was never such a face  
As yours I'm dreaming of  
I'm a native to your love

You and I walking on  
Together hand in hand  
In to the setting sun  
You and I walking on

And I am with you now, finally  
I am with you now, finally  
I am with you now  
And I will always be
