

No Instructions

Griffin House

I don't know my way out anymore
There is not a thing I know for sure
There are no instructions for this life, love
There are no instructions when we die

You can be the one to lead me out of all the traps I'm seeing
You can be the one to watch the water go down
Running now, keep running now
On the other shore you'll find answers to the things that make
the riddles go round
Keep on going, there's no slowing
When the flood starts, it's flowing, when the world stops spinning round

I don't know my way out anymore
There is not a thing I know for sure
There are no instructions for this life,
We can be who we want to be tonight

You can be the one to lead me out of all the traps I'm seeing
You can be the one to watch the water go down
Running now, keep running now
On the other shore you'll find answers to the things that make
the riddles go round
I keep on going, there's no slowing
When the flood starts, it's flowing, when the world stops spinning round

In too deep, no turning back
A thousand weights on my back
In too deep, no turning back
A thousand weights on my back now
Running now, I keep running now
Running now, I keep running now

I can offer no direction,
I can offer no protection
