

Every single word I thought  
Pursuit me time to go  
But I don't use that fact to know  
I'm kinda sick of getting old

Oh, I won't take your breath away  
You are hard to find from my gold fingers  
Oh, I won't take your breath away  
So you don't have to go

I won't take your breath away  
Even now I guess I'm loving you forever  
I won't take your breath away  
Silence that is ours and we'll use it tonight

I don't wanna say  
I don't wanna do anything above the stars above you  
I don't wanna say  
I don't wanna do anything above the stars above you

Every single word I say  
Has my passion with  
Every man I hope find  
I'll walk them in the way

But I won't take your breath away  
You have not to fear 'cause we're better than fear  
Oh I won't take your breath away  
So you have me together

I won't take your breath away  
Oh na na na na na na oh  
I won't take your breath away  
Oh na na na na na na oh

I don't wanna say  
I don't wanna do anything that close to show I love you  
I don't wanna say  
I don't wanna do anything that close to show I love you  
[2x]
