

I've been

Oh, I've been waiting desperately
And my heart is here right next to me
And I'm caught waiting in the rain

Oh, I've been waiting desperately
And my heart is here right next to me
And I'm caught waiting in the rain

And I know and I need you in the storm
And I, oh I, oh I

Hey hey, you wanna play
'Cos baby I can go and go
And every other day you're running off with so and so
Well, baby I would throw you if I didn't know you but I'm paying for it

Hey hey, you wanna play
'Cos baby I can go and go
And every other day you're running off with so and so
Well, baby I would throw you if I didn't know you but I'm paying for it

Baby I would throw you if I didn't know you, but I'm paying for it

I hold on
And I don't care what you say
'Cos the way it goes it's still happening everyday
(I can see space on the radio)

I hold on
And I don't care what you say
'Cos the way it goes it's still happening everyday

Everyday, everyday, everyday, everyday

Hey hey, you wanna play
'Cos baby I can go and go
And every other day you're running off with so and so
Well, baby I would throw you if I didn't know you but I'm paying for it

Hey hey, you wanna play
'Cos baby I can go and go
And every other day you're running off with so and so
Well, baby I would throw you if I didn't know you but I'm paying for it

Hey hey, you wanna play
'Cos baby I can go and go
And every other day you're running off with so and so
Well, baby I would throw you if I didn't know you but I'm paying for it
