

Not Forgotten

Groove Armada

The winter wind blows out your tune I can breathe but I'm not a
live The night sky wakes up your smile My heart strings swell o
ut of tune The wind blows out of tune Whistles from green to ye
llow, blue Can't stop the world, reminded me of you My heart st
rings swell out of tune

I can't imagine why I should go on I can't continue solo for so
long

Coz your hearts finished my shock My real thoughts are so damn
blocked

The night sky wakes up your smile With your eyes I see for mile
s and miles I can breathe but I'm not alive Can't stop the worl
d reminded me of you

I can't imagine why I should go on I can't continue solo for so
long

Coz your hearts finished my shock My real thoughts are so damn
blocked
