

Too Close To Leave

Guano Apes

To be with you
you're so sweet
your naked body lies next to mine
and we're here
within touching your skin with my eyes
I'm a river so deep in your arms
sharin the same heart
within don't let me be one of your stars

cos I live all the dreams you dream
and I see all the things you need
(you've been down with me
I'm too close to leave)

Enemy
seem to be
do you really think that you want me
coming through
into my heart
touching my soul here I start
don't talk when all words ain't enough
act like my man
we know life is rough
within hold on when time seems to stop

cos I live all the dreams you dream
and I see all the things you need
(you've been down with me
I'm too close to leave)
animating the sin in me
when I'm with you I leave reality

I let in
I let i the sin
I let in
I let i the sin...
you've been down with me
now I'm to close to leave

cos I live all the dreams you dream
and I see all the things you need
(you've been down with me
I'm too close to leave)
animating the sin in me
when I'm with you I leave reality
