

I Am a Scientist

Guided by Voices

I am a scientist - I seek to understand me
All of my impurities and evils yet unknown
I am a journalist - I write to you to show you
I am an incurable
And nothing else behaves like me

and I know what's right
But I'm losing sight
Of the clues for which I search and choose
To abuse
To just unlock my mind
Yeah, and just unlock my mind

I am a pharmacist
Prescriptions I will fill you
Potions, pills and medicines
To ease your painful lives
I am a lost soul
I shoot myself with rock & roll
The hole I dig is bottomless
But nothing else can set me free

and I know what's right
But I'm losing sight
Of the clues for which I search and choose
To abuse
To just unlock my mind
Yeah, and just unlock my mind

I am a scientist - I seek to understand me
I am an incurable and nothing else behaves like me

Everything is right
Everything works out right
Everything fades from sight
Because that's alright with me
