

Lord of Overstock

Guided by Voices

Straight to the lord of overstock
Who spoke for the millionth turn
Dont be late for the superdeal, well save you a lot
And take every cent you earn

Following tips, his overfed rats
Said, Trust in the king of overstock
Invest in his wisdom and learn
Theres less to go around if everyone counts
But if youve got the money to burn
Then you will be in
Always good faith
For what you are worth
In heaven on earth
