

Back to Life

H.E.A.T

Back to life!

Stay alive, on your feet
Sound the drums, let them beat
I'm ready, I'm ready now
Crazy nights, no one sleeps
Feel the heat of the street
I'm ready, are you ready now?

I'm gonna wake you up gonna set you free
Cause there ain't no place I'd rather be

Live - gonna bring you back to life
Live - gonna bring you back to life
Cause we were born to rock n roll
Live - gonna bring you back to life
Back to life

Spirit's high, electrified
Lazer eyes hypnotize
We're ready, we're ready now
Feel your body come alive
Fly your colors ever high
We're ready, are you ready now?

I don't know what I've been told
Rock n roll will never get old

Live - gonna bring you back to life
Live - gonna bring you back to life
Cause we were born to rock n roll
Live - gonna bring you back to life
Back to life
