

Blind Leads the Blind

H.E.A.T

When you turn that stone I know what you'll find
There's a wolf inside the sheep's hide
F-f-foolish minds they look to the skies
To justify their genocide, yeah

War is waged among us

If it goes around it comes around
Can't build up by tearing down
We are running out of time
The future's lost when the blind leads the blind

And here we stand at the turn of the tide
Where war takes the limelight
With eyes half shut are we scared to admit
We know their smiles are counterfeit, yeah

War is waged among us

If it goes around it comes around
Can't build up by tearing down
We are running out of time
The future's lost when the blind leads the blind

Wake up, wake up - fuck you fantasy
Whoa-oh, wake up, wake up, wake up
Wake the fuck up! Yeah

War is waged among us
If it goes around it comes around
Can't build up by tearing down
We are running out of time
The future's lost when the blind leads the blind
When the blind leads the blind
