

Do You Want It?

H.E.A.T

Come, I'll tell my dirty secret.
darling come
You made me realise that what I feel
Is the turbulence to cost my mind to spin
Like a sextrain off the rails

A special situation needs a special remedy
Expect the unexpected,
come on let me set you free

Now we're alone so let's put on the show
Do you want it, want it - want it, want it
Down in these beds, and it's time to confess
Do you want it, want it - want it, want it

Do you want it, want it
Do you want it, want it

I fold, my kings are full of aces but I fold
You can't believe control the hand I hold
My hands control
If that's something that you need
Then close your eyes and count to three

A special situation needs a special remedy
Expect the unexpected,
come on let me set you free

Now we're alone so let's put on the show
Do you want it, want it - want it, want it
Down in these beds, and it's time to confess
Do you want it, want it - want it, want it

Do you want it, want it
Do you want it, want it

A special situation needs a special remedy
Expect the unexpected,
come on let me set you free
A special situation needs a special remedy
Expect the unexpected,
come on let me set you free

Now we're alone so let's put on the show
Do you want it, want it - want it, want it
Down in these beds, and it's time to confess
Do you want it, want it - want it, want it

Do you want it, want it
Do you want it, want it
Do you want it, want it
Do you want it, want it
